

NEST SNATCHERS GAME!

Choose something soft and bulky as your eggs. (cushions or balls or balled up socks?)

Make a nest in the middle of the floor. The grown up is The Screecher!

Blindfold the Screecher, and get it to guard its eggs, using all its other senses to tell where the nest snatcher are.

Everyone else is nest snatchers.

They have to see if they can swap an egg for a different item. If the Screecher catches a snatcher they must go back to touch the outer wall of the room and try again. The Screecher can capture the nest snatchers and gobble at them if they are hungry! (pretend)

If a nest snatch successfully swaps an egg for another item. Then the Screecher has to guess what the item is to get its egg back.

After a while you can swap who is who in the game.
